

THE FAMILY
PARTNERSHIP

ABOUT US

Generational healing for generational thriving.

The Family Partnership is a 146-year-old Minneapolis nonprofit providing services and advocacy that clear the path to family success.

OUR VISION

A Twin Cities where all children and families, regardless of income or origin, reach their full potential.

OUR APPROACH

We advance sustainable solutions through a **2Gen approach** that moves the whole family forward. Our services leverage emerging **brain science** with an **equity focus** to help buffer families against adversity and boost skills for success at home and in the community.

OUR SERVICES

Early Childhood
Education and Care

Mental Health
Therapies

Family Home
Visiting

Anti-Sex
Trafficking

Mobility
Mentoring

WHO WE SERVE

Each year we partner with more than 4,500 children, individuals, and families in the Twin Cities.

- **49%** are infants to 18 years old
- **95%** live in low-income households
- **80%** are Black, Indigenous, and people of color
- **60%** are girls and women
- **4%** are transgender and gender non-conforming

OUR IMPACT

- **100% of preschoolers** at Four Directions and North Minneapolis Preschool graduate kindergarten-ready, compared with 60% statewide and 52% from low-income households
- **100% of families identified by Child Protective Services as *at risk*** improved parenting skills and connected with additional resources—leading to no CPS cases being opened
- **89% of children in mental health therapies** reported stronger family relationships
- **93% of participants in anti-sex trafficking** through PRIDE (Promoting Recovery, Independence, Dignity and Equality) reduced involvement in the commercial sex industry

OUR PARTNERSHIPS

We partner with local and national organizations to enhance service delivery and strengthen outcomes for children and families.

**Northside

EGG TOOLKIT

The Family Partnership developed EGG Toolkit in collaboration with early childhood educators and leading experts in brain science, child development, and curriculum design.

Short for “Empowering Generational Greatness,” EGG works by helping 3- to 5-year-olds develop executive function and self-regulation skills at the critical stage when brain development is at its fastest and most foundational.

Promising results from our pilots show that preschool-aged children using EGG Toolkit develop greater focus and resilience, key capacities for success in school and life. These promising findings are especially significant for children who have experienced Adverse Childhood Experiences (ACEs).

EGG helps to buffer children against the harmful impacts of ACEs, closing opportunity gaps in early childhood and supporting a lifetime of better outcomes for physical, mental, and behavioral health.

**The proven toolkit
for building lifelong
resilience and focus.**
